Balance Sheet—Percentage Composition of Assets and Liabilities

This page presents the major components of assets, liabilities, and capital as a percentage of total assets. Averages used on this page are a year-todate average of end-of-period balances, including the prior year-end. Thus, for December, an average would be composed of the balance at December for the prior year, March, June, September and December of the current year. Please note that the averages used on this page are not used for earnings analysis on pages 1, 3 and 12.
